SECTOR AT A GLANCE

Short-term Training

Skilling, Livelihoods and Labour Welfare Sector in India

DRAFT

Sector at a Glance

Short-Term Training

Skilling Livelihoods and
Labour Welfare Sector in India

The '**Sector-at-a-Glance**' provides an easy-to-read overview and basic understanding of a sector, sub-sector, or thematic area. The facts and insights on the sector are supported by relevant data and best practices from credible government and multilateral sources. The document covers the structure, key trends, opportunities and challenges, government initiatives, and the way forward for the sector.

Overview

Short-term training refers to training programmes conducted in a relatively shorter period (less than 6 months), which are typically tailor-made to meet specific needs of the target groups. Recognizing the need to adapt to the fast-changing labour market, the first National Policy on Skill Development was published in 2009 which placed a strong emphasis on short-term, market oriented, demand-driven courses. Short-term training gained significant momentum from 2015 onwards with the launch of the Pradhan Mantri Kaushal Vikas Yojana (PMKVY) in alignment with the National Policy for Skill Development and Entrepreneurship 2015, which superseded the 2009 policy.

Short-term training in India focuses on imparting both technical and soft skills and is aimed at the following:

Figure 1: Skilling Outcomes and Objectives

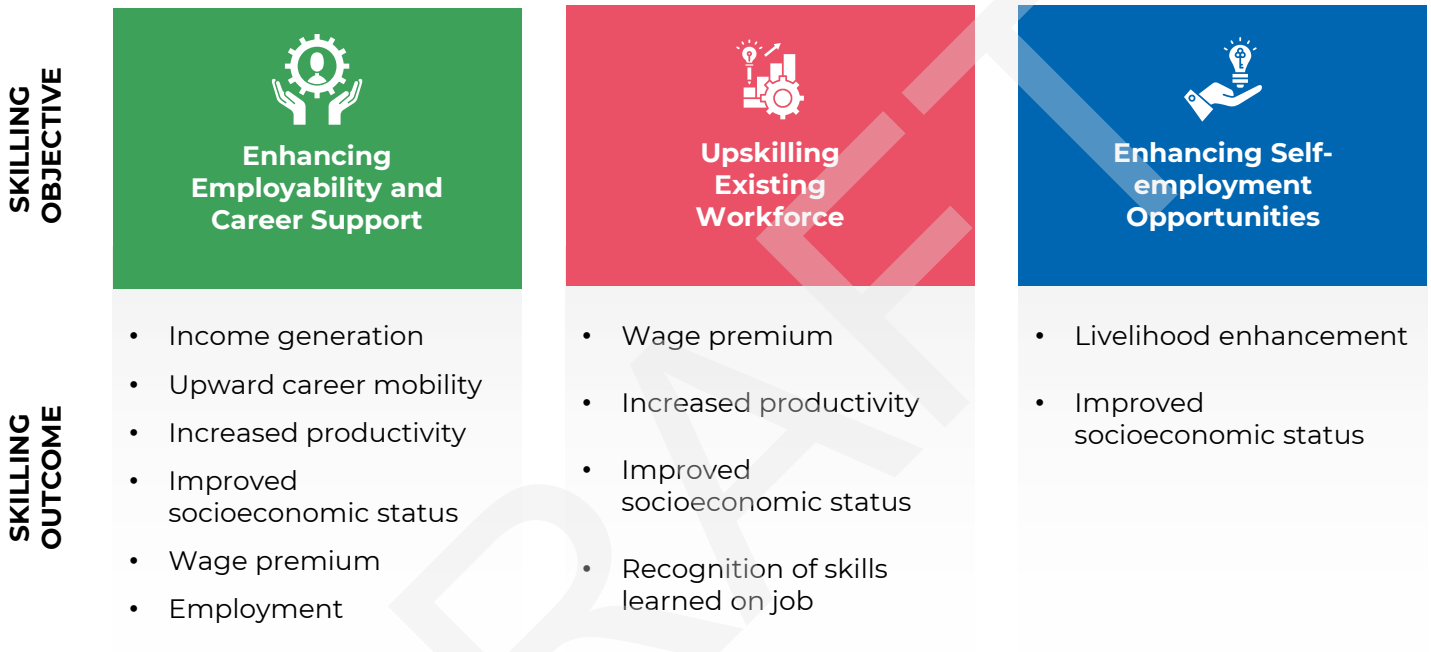

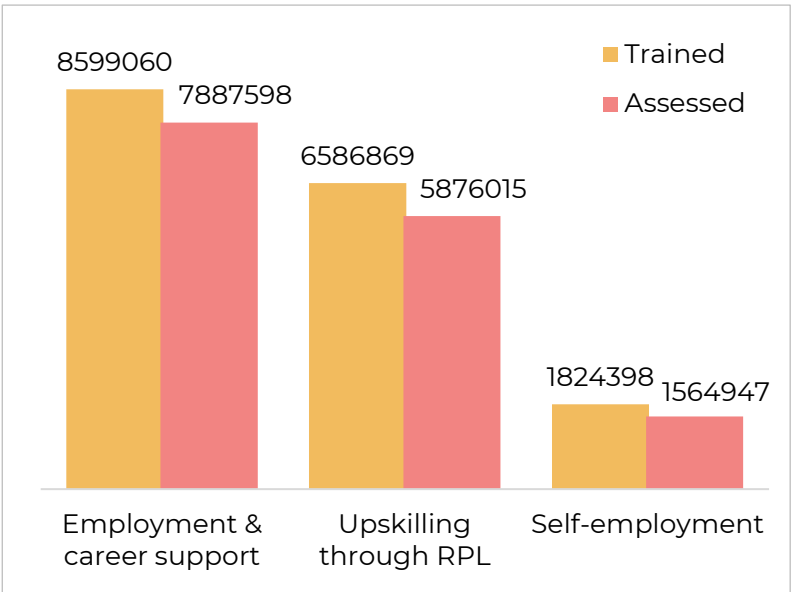

Figure 2: Candidates Assessed And Trained Through Short-term Programmes of MSDE

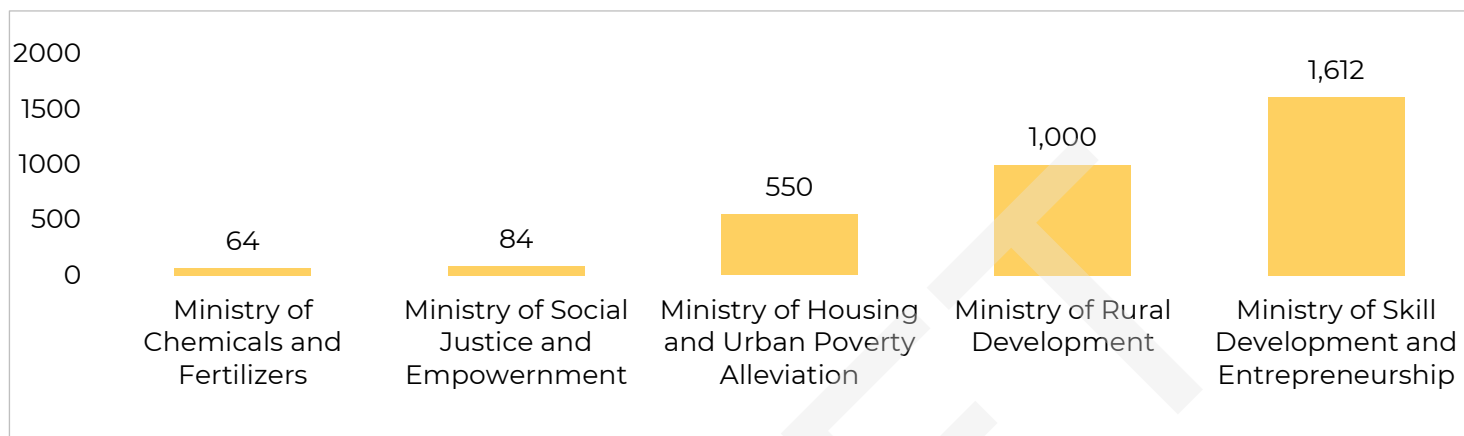

While multiple initiatives were been taken, skill development in the country faced challenge of multiplicity of agencies and duplication of efforts. To address this problem, Ministry of Skill Development and Entrepreneurship (MSDE) was created as a separate Ministry in 2014 to promote skill development and entrepreneurship. The Ministry is responsible for co-ordination of short-term skilling efforts across the country, removal of disconnect between demand and supply of skilled manpower, building the vocational and technical training framework, skill up-gradation, and building of new skills and innovative thinking.

Source: MSDE and PMKVY dashboards (July 2023)

There are 20+ Ministries under the Central Government who are working for the purpose of skill development. Considering the involvement of multiple Ministries, it is crucial to examine the Government's budget allocation to identify and gain insights into the Ministries that are receiving substantial Government resources. The Government's budget allocation reveals a significant focus on schemes related to the Ministry of Skill Development and Entrepreneurship (MSDE), Ministry of Rural Development (MoRD) and Ministry of Housing and Urban Poverty Alleviation.

Figure 3: Ministry Wise Allocation for Skill Development (Re 2022-2023) (in Rs. Crore)

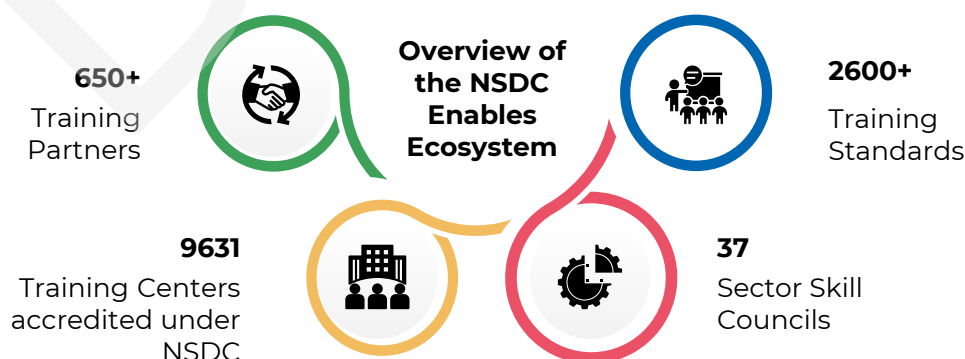

Source: Budget Allocation, Government of India

Apart from the schemes that are run by the Central Ministries, there are multiple short-term training schemes that are initiated at the state-level, typically by State Skill Development Missions (SSDMs) in coordination with various line departments.

Besides Government schemes, the private sector also plays a pivotal role in the short-term training ecosystem. The Government set up the National Skill Development Corporation (NSDC) as a Public Private Partnership (PPP) model in 2009 to enhance the private sector's engagement in the ecosystem and make skill training demand led and industry relevant. Over the course of its 14 years of existence, NSDC has enabled the skills ecosystem by enhancing private sector participation, supporting development of sector specific standards and providing support services to strengthen the ecosystem. NSDC has also played an important role in incubating 37 Sector Skill Councils, which are national level organisations responsible identifying and developing sector specific potential for skill development.

Figure 4: NSDC Enables Ecosystem

Source: NSDC website and Annual Report (2019-20)

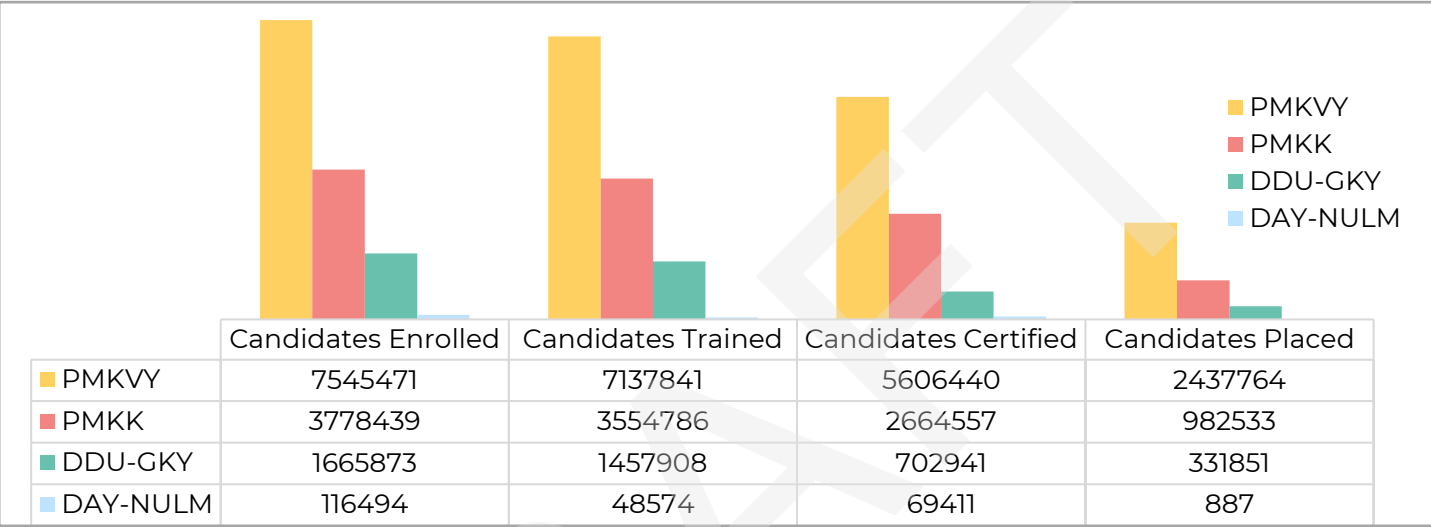

The following section on sub-sectoral trends focuses on programmes/ schemes by key Central Ministries, State Governments and Private Sector organisations.

Sub-Sectoral Trends

Enhancing Employability and Career Support

Short term training for enhancing employability and career support includes training programs that help candidates become job-ready and primarily lead to wage employment. The target group for these training programs are primarily youth who are college/ school dropouts, and out-of-education. The below mentioned graph depicts the overall numbers achieved so far across key schemes.

Figure 5: Candidates Assessed And Trained Through Short-term Programmes under Key Central Ministries' Schemes - PMKVY, PMKK, DDU-GKY, DAY-NULM

Source: Skill India Portal (July 2023)

Special Projects

The Special Projects component under flagship schemes like DDU GKY and PMKVY envisions the development of a platform that enables training in specialised areas and/or facilities of governmental, corporate, or industry bodies, as well as training for specialised job roles that are not covered by the National Occupational Standards (NOS) or Qualification Packs (QPs) currently in use.

The purpose of Special Projects under is to implement project-based skilling interventions, particularly to meet the skilling needs of marginalised or vulnerable groups (to include, hereafter, Scheduled Castes and Tribes, transgender, Persons with Disabilities (PwDs), women, economically backward people, any other category which identifies as marginalised/vulnerable and is recognised by the Government of India and State Government(s), and those from difficult/remote backgrounds).

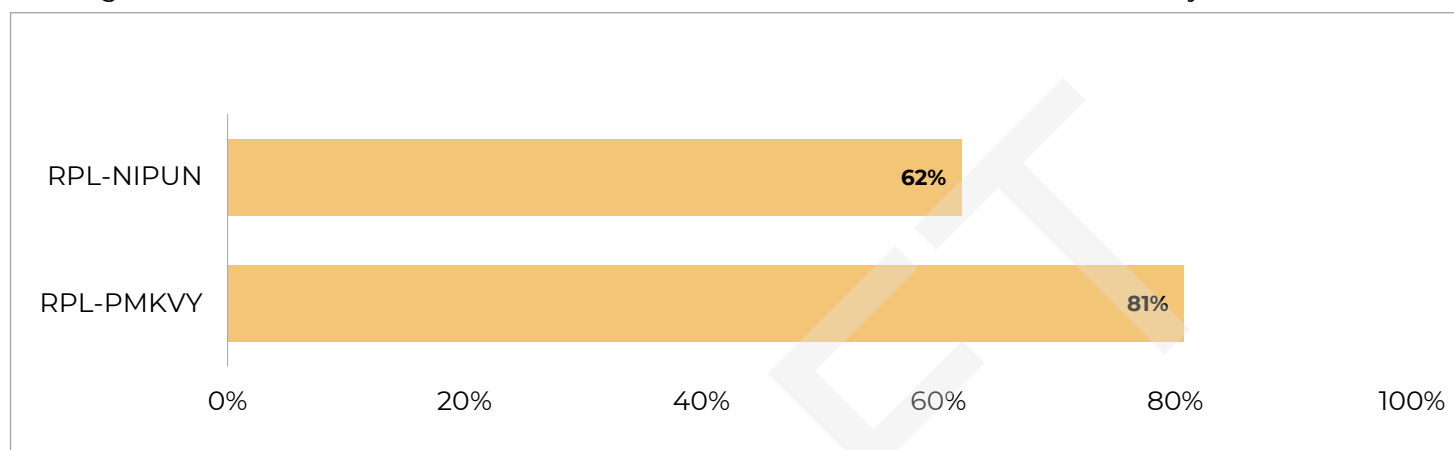

Table 1: Interventions based on Geography and Beneficiary

SN	Areas of Intervention	Training Intervention
Geography		
1.	Aspirational Districts	- There are 13 districts without any PMKVY centers, and around 29 districts don't have any PMKK centers. 291 training centers in PMKVY 3.0 29505 candidates trained
1.	LWE-affected districts	29 districts covered under PMKVY - Around 1,10,400 candidates received PMKVY training in the FY 2020-21/22
1.	Border districts identified by NHA	Around 5,000 youth received training under PMKVY
Beneficiary		
1.	Particularly vulnerable tribal group	Around 5,000 PVTGs received training under PMKVY
1.	Tribal Groups	- Under the STT component of PMKVY, 44,142 ST candidates have been reportedly placed in the tribal-dominated areas during 2019-20 to 2021-22. - A total of 1,281, 1,751, and 825 TCs were set up under PMKVY 1.0, PMKVY 2.0, and PMKVY 3.0 respectively in the tribal-dominated areas.
1.	Transgender	502 transgenders were trained under PMKVY.
1.	Jail Inmates	No training intervention under PMKVY
1.	PwD	Under the STT component of PMKVY 2016-20, 26,751 PwD candidates have been trained in 984 PwD-friendly training centers

Upskilling Existing Workforce

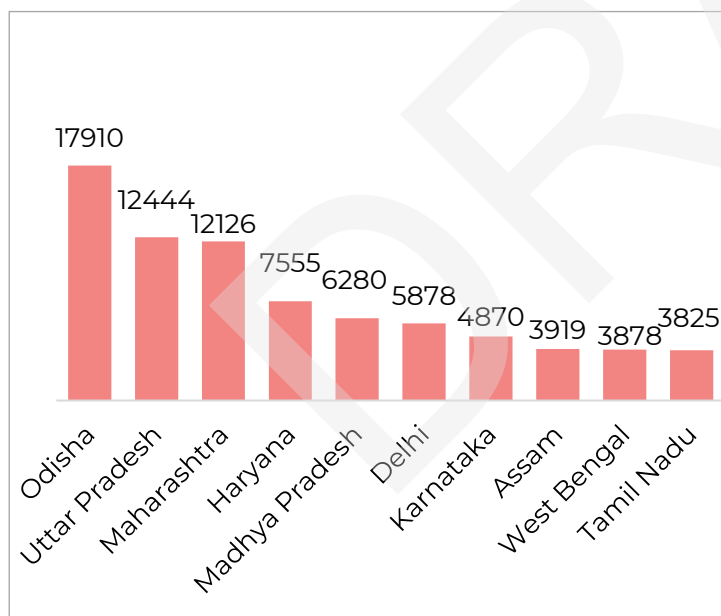

A large proportion of the workforce faces disadvantages due to an absence of formally recognized qualification, even though they might have the required knowledge and skills. Recognition of prior learning (RPL) is a program for individuals with prior knowledge or skills who are willing to get formal recognition, with focus on individuals engaged in unregulated sectors. Special focus is also given to vulnerable groups like rural artisans, women, jail inmates, inmates of juvenile homes, members of the transgender and beggar communities, etc. There are two flagship RPL schemes nationally viz. NIPUN and PMKVY under Ministry of Housing and Urban Affairs (MoHUA) and the Ministry of Skill Development and Entrepreneurship, respectively.

Figure 9: Share Of Enrolled Candidates Who Were Assessed And Certified under Major RPL Schemes

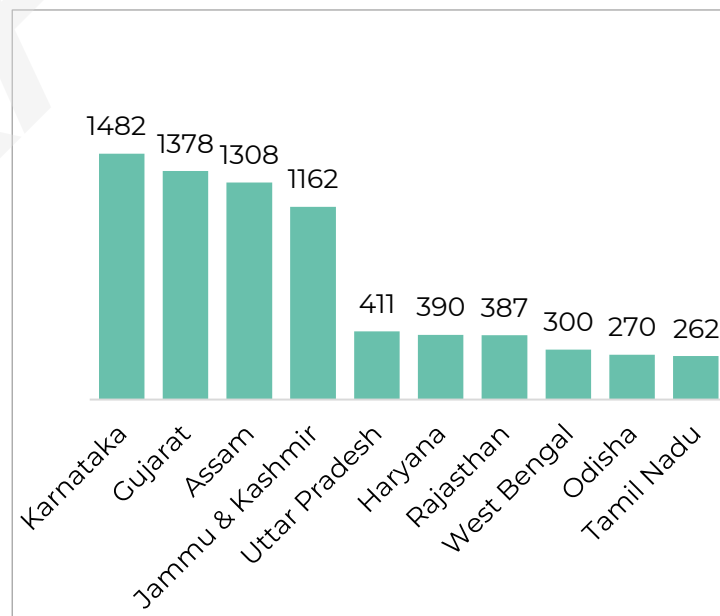

Source: Skill India Portal and PMKVY Dashboard (July 2023)

Figure 10: Top 10 States With Highest Enrollment Under NIPUN-RPL

Source: Skill India Portal (July 2023)

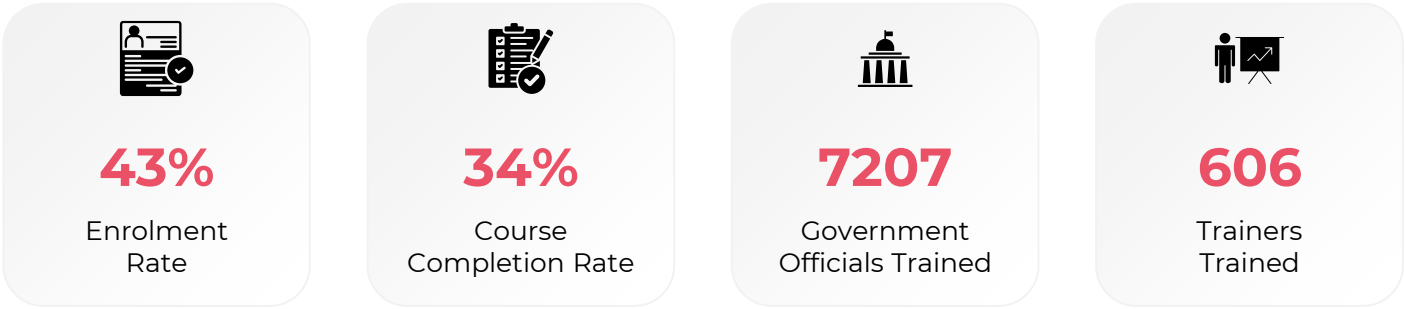

Figure 11: Top 10 States With Highest Enrollment Under PMKVY-RPL

Source: PMKVY Dashboard (July 2023)

Another important upskilling initiative is under the ambit of **FutureSkills PRIME** (Programme for Re-skilling/ Up-skilling of IT Manpower for Employability)- a joint initiative by and(MeitY) and NASSCOM which aims to provide re-skilling/ up-skilling opportunities in 10 emerging technologies, such as Internet of Things (IoT), artificial intelligence, robotic process automation, additive manufacturing/ 3D printing, blockchain, etc. The envisaged target for the project is 4.12 Lakh beneficiaries (4 Lakh Professionals, 10,000 Government Officials and 2,000 Trainers).

Figure 12: Futureskills Prime Overview

Source: MeitY Annual Report 2021-22

Enhancing Self-employment

Short-term programmes leading to self-employment focus on inculcating entrepreneurial values, attitude, and motivation, thereby enabling local trades to grow and create new opportunities for the natives of the region.

The Jan Shikshan Sansthan (JSS) is a major scheme for self-employment under MSDE that provides vocational training to non-literates, neo-literates as well as school dropouts in rural regions by identifying skills that have a relevant market in that region.

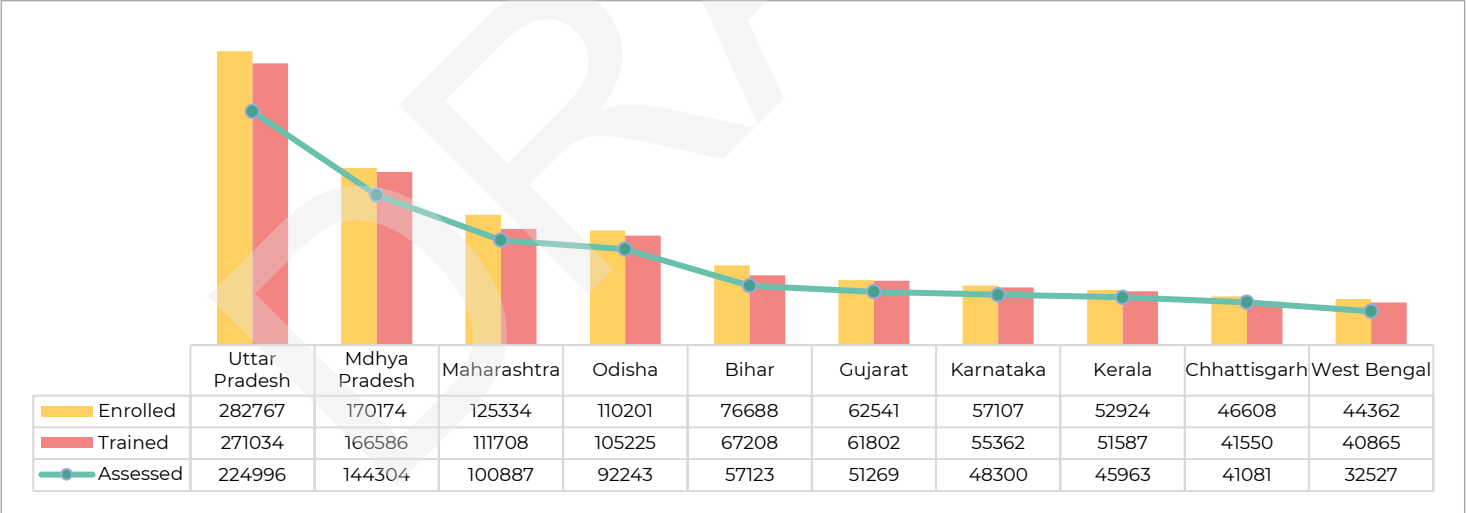

301
Functional JSSs

4 lakh beneficiaries,
with 85% being women

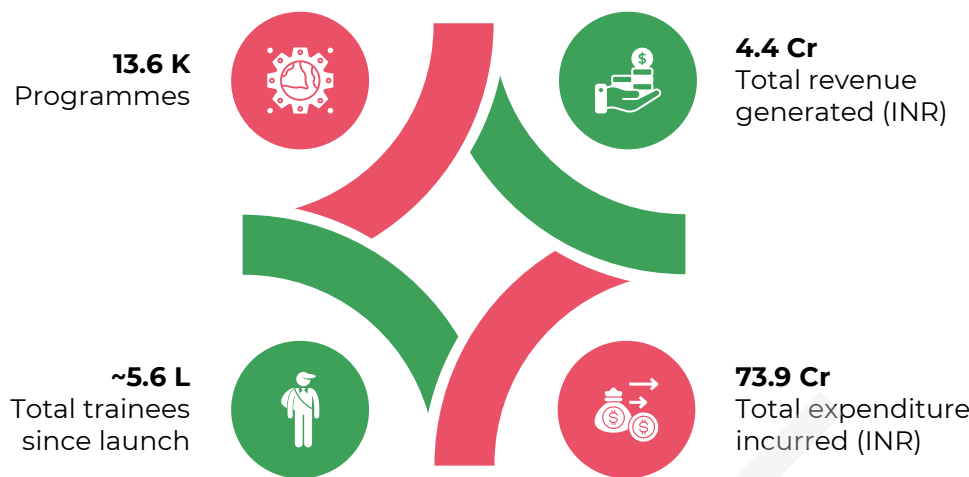

Figure 13: Top 10 Performing States Under JSS

Source: MSDE dashboard (July 2023)

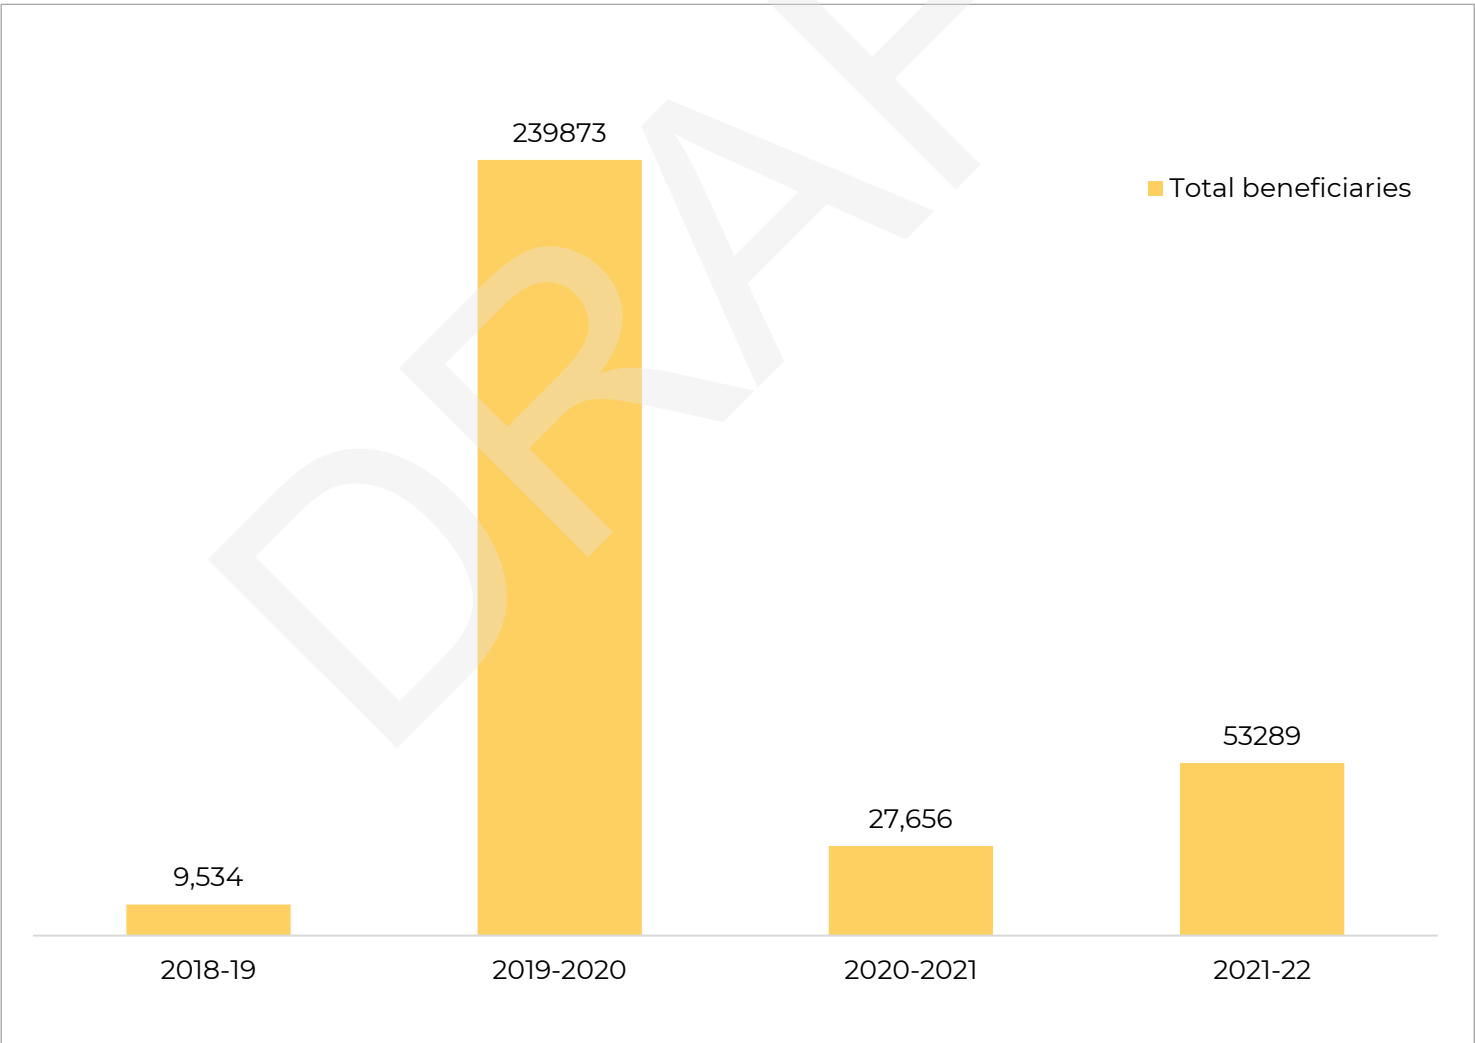

Besides the short-term training for self-employment provided by MSDE, the Ministry of Micro, Small & Medium Enterprises (MSME) run **Entrepreneurship Skill Development Programme (ESDP)** is a major initiative that promotes self-employment through short-term training. ESDP aims to motivate different sections of society such as SC, ST, women, differently abled, ex-servicemen and people belonging to the BPL category, to take up entrepreneurship as a career option. Under the scheme, short-term training is provided in multiple areas, such as agro-based products, hosiery, food and fruit processing industries, carpet weaving, fabrication, etc.

Figure 14: Overview of Entrepreneurship Skill Development Program

Source: Kaushal Bharat Dashboard (July 2023)

Figure 15: Total Beneficiaries Under ESDP (2018-2021)

State Level Schemes

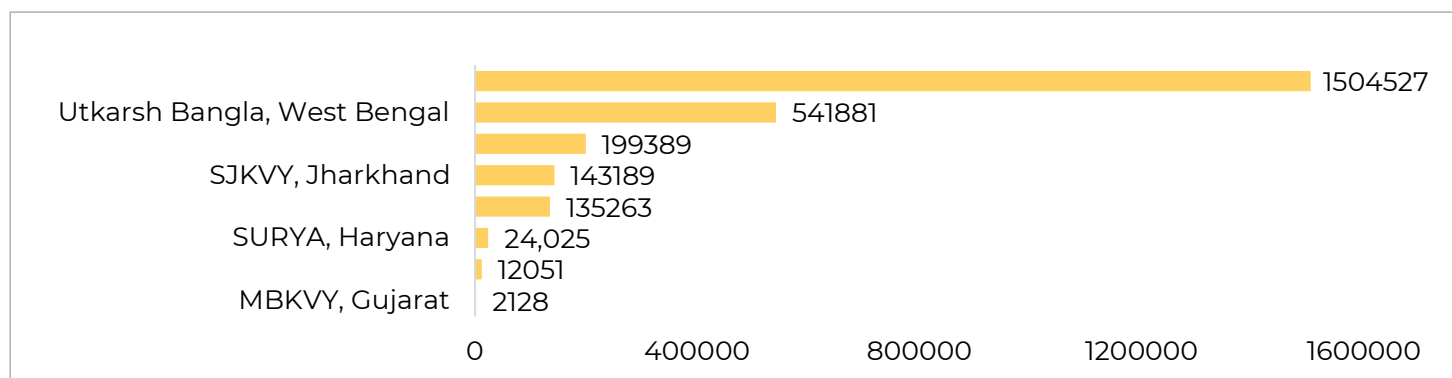

At the state level, while the SSDMs serve as nodal bodies to promote convergence of implementation efforts in line with the national objectives, they also have the autonomy to formulate skill development programmes for their specific states. Many states, such as Gujarat, Maharashtra, Haryana and Karnataka have designed and implemented flagship short-term training schemes based on the specific needs, priorities and demographics of their states.

A few state-level flagship short-term training schemes and their main objectives are as follows:

Table 2: State Level Schemes

 State flagship schemes	 Enhancing Employability and Career support	 Upskilling existing workforce through RPL	 Enhancing self-employment opportunities
Saksham, Gujarat	✓		✓
Mukhyamantri Bhavishyalakshi Kaushalya Vikas Yojana (MBKVY), Gujarat	✓		
Kushal Yuva Programme, Bihar	✓		
Chief Minister's Kaushalya Karnataka Yojane (CMKKY), Karnataka	✓		✓
Pramod Mahajan Kaushalya Udyojakta Vikas Abhiyan (PMKUVA)	✓		
Saksham Jharkhand Kaushal Vikas Yojana (SJKVY), Jharkhand	✓		✓
Skilling, Upskilling, Reskilling of Youths and Assessments (SURYA), Haryana	✓	✓	
Utkarsh Bangla, West Bengal	✓	✓	✓

Opportunities and Challenges

Challenges

Mobilisation¹

Mobilisation is a major challenge for skilling programmes in India, including short-term training programmes. Key issues in candidates' responsiveness to sign up for courses include:

- Traditional mindset coupled with low aspirational value of skilling courses
- Lack of awareness and information around availability, utility, and potential of courses, and
- Financial constraints in accessing training

Scalability and Financing

Identifying suitable partners and scaling them up across different markets has been a challenge. The skill development segment has been perceived in the past to be non-scalable due to high capital requirement costs and low returns. Further, a large section of the beneficiaries of skill development programs come from an economically weak background and cannot afford high training fees. This inhibits the creation of a financially sustainable market-driven ecosystem and increases dependence on Government subsidies for skill training.

Sustainable Employment

Short-term training programmes in India have long been characterized by poor placement records. The prime reasons attributable to this are the following:

- Low willingness of the candidates to migrate for organized employment.
- Lack of better jobs and income for skill training graduates due to mismatch with industry requirements.
- Low salaries at the entry-level do not make the employment aspirational.

Opportunities²

Increased Investment

Enhance investment through increased private sector involvement to build capacity, foster innovation and strengthen industry linkages. E.g., NSDC launched Skill Impact Bond to **leverage private sector capital and expertise** to train 50,000 young Indians over next four years, 60% of whom would be women

Green Transitions

3 to 3.50 crore additional jobs to be created in green businesses across sectors **by 2047**. Skill Council for Green Jobs aims to offer **10 lakh short term trainings** in clean and green technologies by 2030

Future Of Work

India's digital economy is expected to create 60 to 65 million jobs, but around **40 to 45 million workers** would **require retraining** due to the transformation brought about by digital technologies and climate.

Integration With National Education Policy (NEP)

50,000 higher education institutions allowed to offer short-term courses under NEP, thereby leading to a **push from the supply side**. Further, the integration of vocational and formal education tracks will provide multiple career paths for vocational training graduates

Skill Council for Green Jobs. (n.d). Green Jobs Handbook.

Cross-Cutting Themes

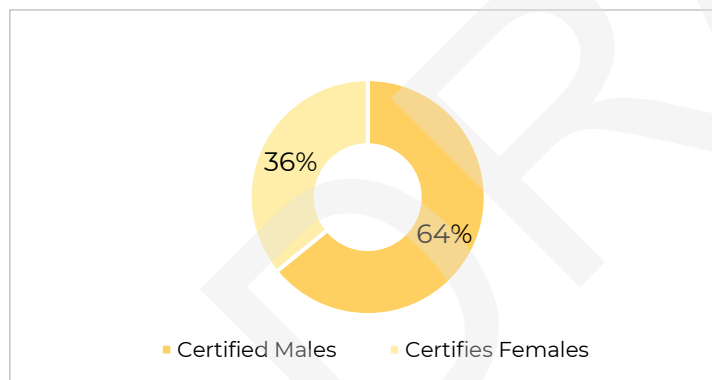

Gender

The National Skill Development Policy focuses on inclusive skill development, with the objective of increased women participation for better economic productivity

Figure 17: Initiatives for Women

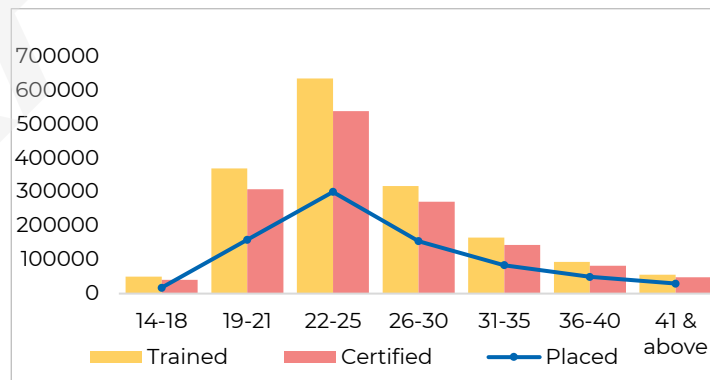

Figure 18: Gender Wise Participation In RPL

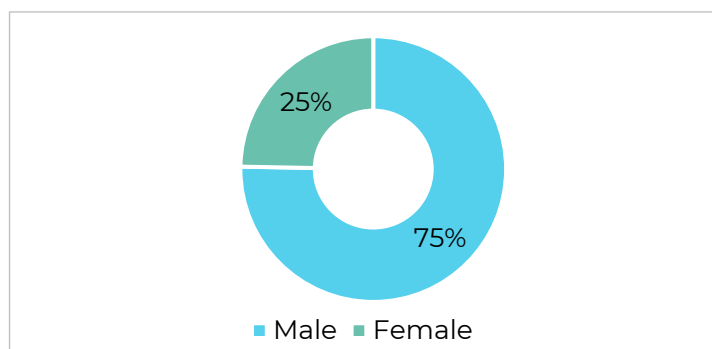

Source: MSDE Report on Skill Mission (RPL) 2021

Figure 20: Gender wise participation In DAY-NULM

Source: Skill India Portal (July 2023)

Figure 21: Gender Wise Beneficiaries Under JSS

Source: Press Information Bureau (2021), Government of India

Demand Aggregation And Alignment To Local Needs

According to an ILO technical paper on Global Skills Gap Measurement and Monitoring (2023), the issue of underqualification among persons in employment is more prevalent in G20 emerging economies, with India having the highest mismatch at 60.5%. Underqualification refers to a lack of desired knowledge and skills required to perform a job or task. In India, nearly every second worker is in jobs requiring higher levels of education with underqualification especially affecting female workers. Short-term training based on demand aggregation and aligned with local industry needs can help reduce underqualification and skills mismatch.

Figure 22: Initiatives for Demand Aggregation and Alignment to Local Needs

Future Of Work And Digital Skills

NASSCOM's 'Future Skills for the Digital Economy' reports that the demand for digital skills is expected to increase by 30% CAGR to reach about 2.7 million by 2030. Short-term training, including upskilling for the existing workforce can be a key enabler in meeting this demand for digital skills.

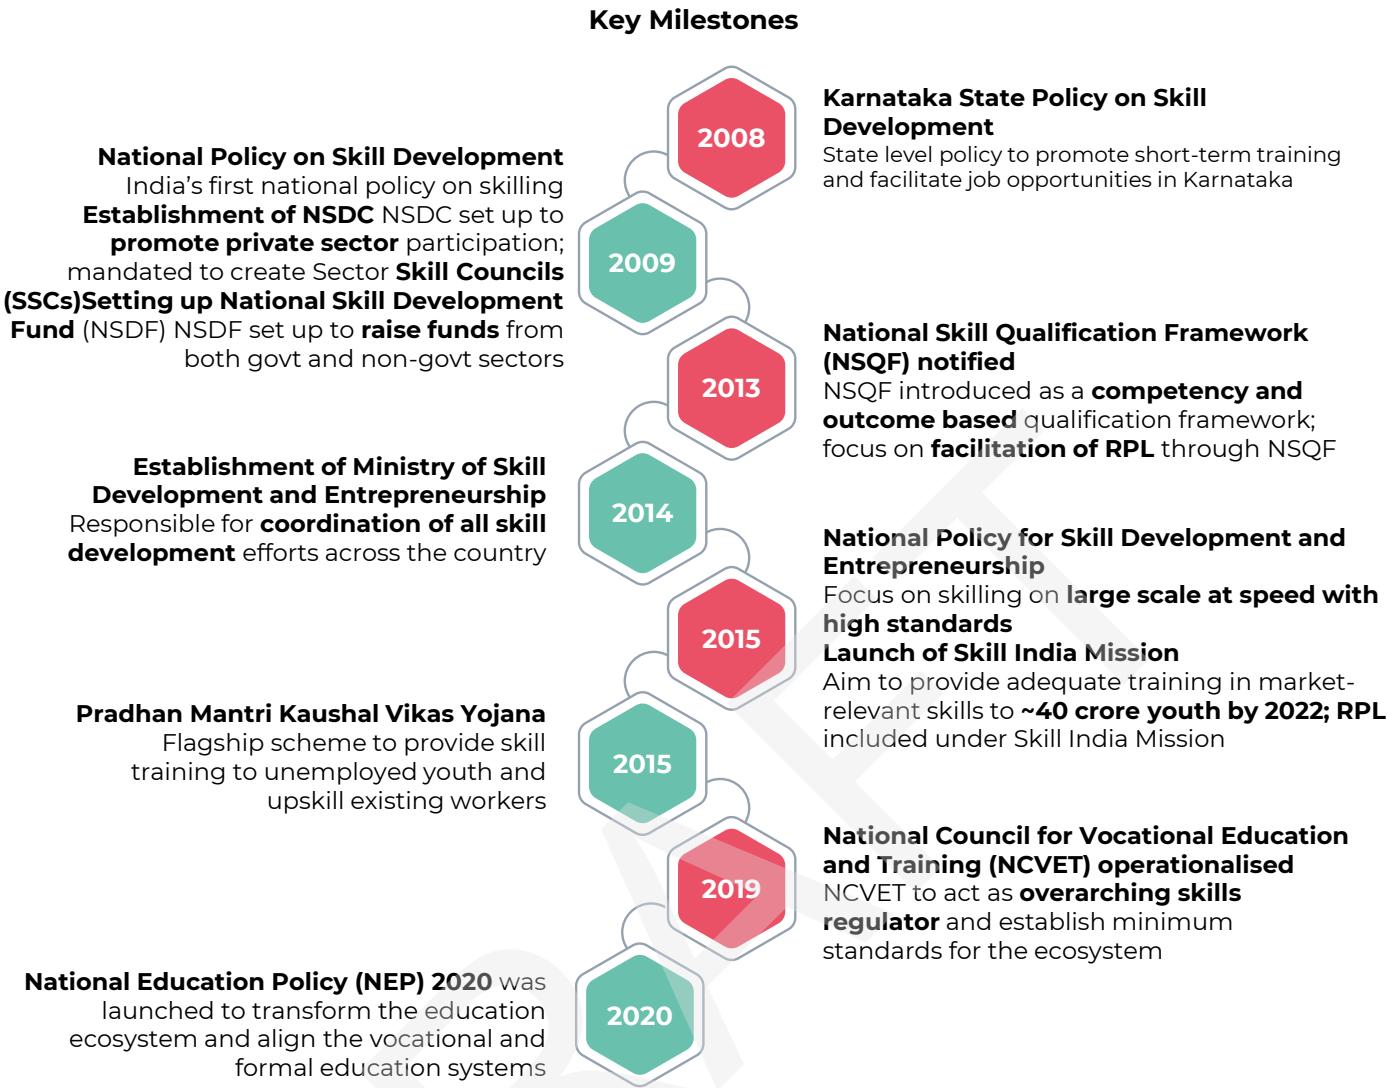

Figure 23: Demand for Digital Skills

	FY 2019		FY 2023
Existing Supply	~640K to ~680K		~1.4M to ~1.7M
Unmet Demand	~260K to ~280K		~900k to ~1M
Total	~900K to ~960K		~2.3M to ~2.7M

Future of Work and Digital Skill Initiatives

- Introduction and promotion of new-age job roles aligned to Industry 4.0 such as Artificial Intelligence, 3D printing, Data Analytics, etc. under Skill India Mission.
- Partnership with global industry leaders like SAP, Adobe, IBM to create skill development programs aligned to the needs of Industry 4.0.
- NASSCOM's FutureSkills Initiative to reskill 2 million professionals and potential employees and students in the industry over a period of 5 years; focus on 155+ skills spanning across 70+ job roles on 10 emerging technologies

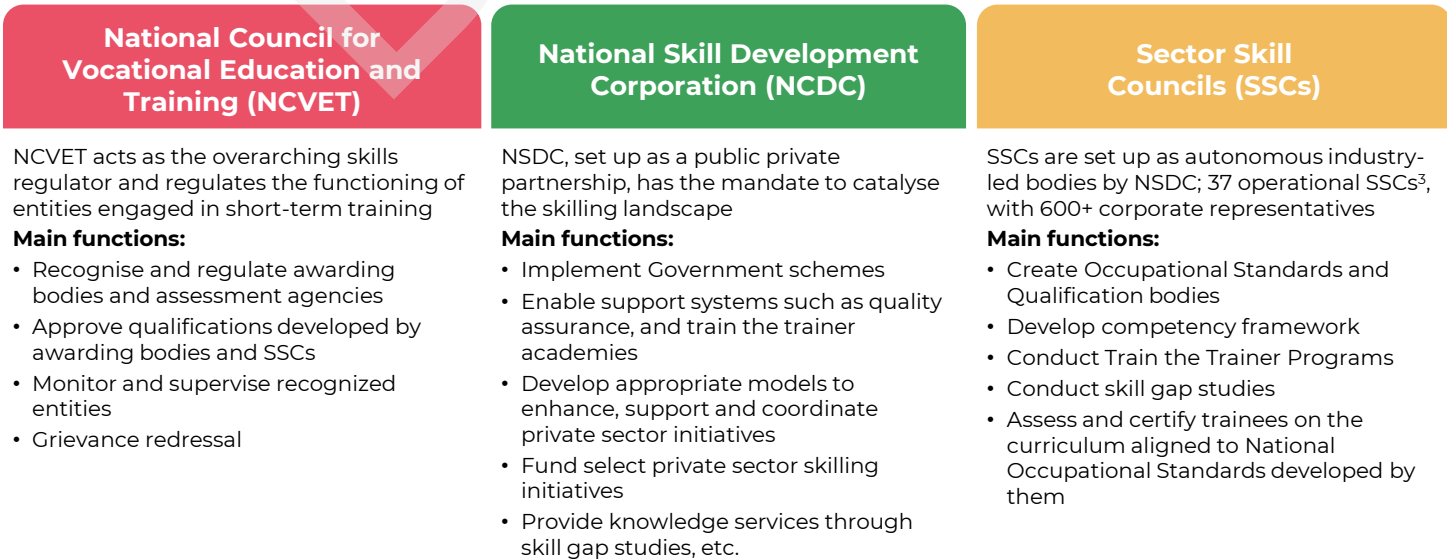

Figure 24: Government Initiatives

Government Initiatives

The Ministry of Skill Development and Entrepreneurship (MSDE) is responsible for heading and coordinating all short-term skill development efforts at the national level. The Ministry is supported in its activities by its functional arms at the national and state level

Figure 25: Key Institutions at The Central Level

³National Skill Development Corporation. (2008). *Sector Skill Councils*. Retrieved 6 July 2023.

Enabling Initiatives by MSDE

Introduction of Common Norms to unify and standardize the implementation of different skilling frameworks and initiatives. Common norms include standards for inputs/output, funding/cost norms, third party certification and assessment cost, etc.

Introduction of National Skill Qualification Framework (NSQF) as a quality assurance framework to ensure standardisation in programmes, consistency in training and convergence on learning outcomes

Establishing SSCs to create National Occupational Standards (NOSs) and qualification packs, develop competency framework, and ensure standardised delivery of training for the trainers and assessors

Flagship Schemes by MSDE for Short-Term Training

सत्यमेव जयते

GOVERNMENT OF INDIA
MINISTRY OF SKILL DEVELOPMENT
& ENTREPRENEURSHIP

Pradhan Mantri
Kaushal Kendra

Key Institutions At The State Level

As part of the efforts to implement the National Skill Development Mission, a State Skill Development Mission (SSDM) has been created, that acts as the nodal agency for skill development at the state level. The function of SSDMs is broadly to implement state Government and central Government-initiated skilling interventions for various targeted groups. SSDMs are supported by the District Skill Committees (DSCs) which act as the nodal agency at the district level.

Schemes/Programmes By Other Ministries

(Central and State)

Table 3: Major Schemes/Programmes by other Ministries

Scheme Details		Scheme Parameters	
			
NAME OF MINISTRY	NAME OF SCHEME	GEOGRAPHICAL COVERAGE	ANY SPECIFIC SOCIO-ECONOMIC GROUP THE SCHEME CATERS TO
M/o Agriculture (DARE)	Training in Agricultural Extension (21 training centers)	Pan India	Personal engaged in Agricultural Institutions and support services, members of cooperatives, and Farmers under KVK
M/o Chemicals and Fertilizers (Department of Chemicals and Petrochemicals)	Support to Central Institutes of Plastics Engineering and Technology (CIPET)	Pan India	Applicable for all
M/o Commerce and Industry (Department of Industrial Policy and Promotion)	Placement Linked Skill Development Programme (PLSDP): This is a sub-scheme of the Ministry's Integrated Leather Development Programme	Pan India	Fresh, Unemployed youth and existing workers in organized and unorganized leather sector
	Support to Artisans Scheme: This is a sub-scheme of the Ministry's Integrated Leather Development Programme.	Pan India	Artisans in rural clusters
M/o Communications and Information Technology (Department of Electronics and Information Technology)	NIELIT's capacity enhancement plan on skill development (erstwhile DOEACC)	Pan India	Applicable for all
	Entrepreneurship Development Programme (EDP) under NMFP to be conducted by various Government and private organisations, industries, or NGOs	Pan India	SC/ST/Minority Community/Women
M/o Housing and Urban Poverty Alleviation	National Urban Livelihoods Mission (NULM) -Employment through Skill Training and Placement (EST&P) and - Self-employment Programme (SEP)	Pan India	Urban poor

NAME OF MINISTRY	NAME OF SCHEME	GEOGRAPHICAL COVERAGE	ANY SPECIFIC SOCIO-ECONOMIC GROUP THE SCHEME CATERS TO
M/o Micro Small and Medium Enterprises	Entrepreneurship Development Programmes (IMC/ EDP/ ESDP /MDP) scheme implemented through MSME-Development Institutes and Branch Institutes	Pan India	Workers, Educated unemployed youth, Entrepreneurs, and their executives
	Skill Development activities through Tool Rooms and other autonomous institutes of office of DCMSME	Pan India	Workers, Educated unemployed youth, Entrepreneurs, and their executives
	Training under Mahila Coir Yojana through training centres of the Board including Field training Centres	Pan India	Rural Women
M/o Minority Affairs	Seekho aur Kamao	Pan India	Minority group
M/o Rural Development	Aajeevika Skills	Pan India	Rural poor youth (18-35 years), women, SC/ST, minorities, differently abled
	Rural Self Employment and Training Scheme (RSETI)	Pan India	Rural BPL youth
M/o Social Justice and Empowerment	Pradhan Mantri Dakshta Aur Kushalta Sampann Hitgrahi Yojana	Pan India	Artisans, women and youth belonging to SC, OBC, EBC, DNT
M/o Textiles	Scheme for Capacity Building in Textile Sector (SAMARTH)	Pan India	Applicable for all
M/o Tourism	Hunar Se RozgarTak under Capacity Building for Service Providers (CBSP) scheme	Pan India	8th pass, 18-28 years
M/o Tribal Affairs	TRIFED- Skill development/up gradation and capacity building for MFPS	Tribal Areas	ST groups engaged in collecting MFPS
	TRIFED- Skill development/up gradation and capacity building for Handicrafts/Handlooms	Tribal Areas	Women and educated unemployed school drop-out youths
M/o Women and Child Development	Support to training and Employment Programme for Women (STEP) - To provide updated skills and new knowledge	Pan India	Poor and assetless women in traditional sectors
	Women Empowerment and Livelihood Program in the Mid Gangetic Plain- Priyadarshini scheme to organize women into effective self-help group	Mid Gangetic Plain	Women

NAME OF MINISTRY	NAME OF SCHEME	GEOGRAPHICAL COVERAGE	ANY SPECIFIC SOCIO-ECONOMIC GROUP THE SCHEME CATERS TO
M/o Youth Affairs and Sports	Skill Up-gradation Training Programme for Women in 200 Border/Tribal/Backward Districts (SUTP)	200 Border/Tribal/Backward Districts of the country	Women from SC/ST, OBC, Minority, Widow, Economically Backward and Destitute/Homeless categories.
	Scheme of Youth Employability Skill (YES) Training	59 districts of 8 North Eastern states (Assam, Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Tripura, Nagaland, and Sikkim)	-
	National Service Scheme	Pan India	Under this, activities like providing water, water logging, sanitation, electricity, drainage, health and welfare services, life and living conditions, can be undertaken
M/o Environment, Forest and Climate Change	Green Skill Development Programme (GSDP)	Pan India	Youth, including 10th and 12th drop-outs
M/o Electronics & Information Technologies	Skill Development in ESDM for Digital India	Pan India	Candidates studying in class 9 and 10 onwards, unemployed youth who are school dropouts from 8th pass onwards, ITI Certificate or Diploma holders, graduates, registrants in Employment Exchanges
Major State Level Schemes			
Gujarat Skill Development Mission	Short-term training under Saksham (KVK 2.0)	Gujarat	Rural and peri-urban
Maharashtra State Skill Development Society	Pramod Mahajan Kaushalya va Udyojakta Vikas Abhiyan (PMKUVA)	Maharashtra	-
Paschim Banga Society for Skill Development	Utkarsh Bangla	West Bengal	School dropouts/unemployed youth
Directorate of Skill Development, Madhya Pradesh	Mukhyamantri Kaushal Smvardhan Yojana (MMKSY)	Madhya Pradesh	Youth
	Mukhyamantri Seekho Kamao Yojana	Madhya Pradesh	Youth
Jharkhand Skill Development Mission Society	Saksham Jharkhand Kaushal Vikas Yojana	Jharkhand	18-35 years youth
Bihar Skill Development Mission	Kushal Yuva Program	Bihar	18-28 years youth
Haryana Skill Development Mission	Skilling, Upskilling, Reskilling of Youths and Assessments (SURYA)	Haryana	Youth, women, PWDs, transgender persons, etc.

Figure 26: Key Focus areas of Government in Skill sector in India

Access to Skilling

Way Forward

To reap the benefit of India's demographic advantage, it is imperative to equip the workforce with employable skills and knowledge that meet the requirements of the globalized labour market, Industry 4.0. and future skills. In this regard, short-term training can be a critical enabler for improving employment outcomes and achieving higher productivity, thereby leading to faster and more sustainable economic growth. The key themes that will shape the ecosystem are as follows:

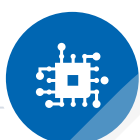

Innovative Financing

- Promotion and enhancement of financing from private sector through innovative means, such as the Skill Impact Bonds.
- Alternative financing options, such as crowd financing platforms. NSDC has collaborated with MILAAP (India's largest crowdfunding portal) to set up a National Loan Portfolio Fund which will offer affordable loans to youth for skill development.
- Introduction of Skill Vouchers or Skill Wallets in order to incentivize the youth.
- Investments by private equity and venture capital funds. E.g., Acumen India, Suzanne and Michael Dell Foundation.

Climate/Green Transitions

- Accelerating job creation and short-term training in key existing and emerging thematic areas, such as renewable power energy, green hydrogen, energy storage, EV charging.
- Skills development activities to target those workers and communities currently in carbon-intensive sectors to provide them the means to access new labour market opportunities.
- Activation of the private sector in the development and promotion of green jobs.

Future of Work and Digital Skills

- Preparing the workforce through skilling/upskilling to take up roles in emerging tech in line with future of work trends.
- Stepping up the pace of digital skill development to ensure future readiness.
- Expanding offerings for modular skill development and talent stacking.
- Promotion of market understanding and acceptance of digital credentials.

International Mobility

- Creating a global talent pool will necessitate skilling the labour force as per international standards and preparing them for transition to international job markets. Short-term training will play an important role in providing technical and job-readiness training to migrating workers. The Government's PDOT initiative is providing orientation training to aspirant migrant workers. The Skill India International Center in Varanasi is another initiative focused on preparing workers for the global labour market.
